**IMPORTANT INFORMATION:**  
New Specifications Handbook - order your copy now

**BSSA**

A completely revised and updated version of the *BSSA Guide to Stainless Steel Specifications* has been published. The first edition was published in 2003 and since then there have been a number of significant changes to the most frequently used stainless steel standards for flat and long products and new standards for tubular products. This latest edition is updated with these changes and also includes some additional standards for the first time.

The major changes in the new edition are:

**Revised standards:**

- EN 10028-7 - Stainless steel flat products for pressure vessels
- EN 10088-2 - Stainless steel flat products for general purposes
- EN 10088-3 - Stainless steel long products for pressure vessels
- EN 10272 - Stainless steel long products for pressure purposes
- EN 10302 - Creep resisting steels
- EN ISO 3506 - Stainless steel fasteners
- BS 6744 - Stainless steel rebar

**Standards published since the first edition or not included in first edition:**

- EN 10088-4 - Stainless steel flat products for construction purposes
- EN 10088-5 - Stainless steel long products for construction purposes
- EN 10213-4 - Stainless steel castings for pressure purposes
- EN 10216-5 - Stainless steel seamless tubes for pressure purposes
- EN 10217-7 - Stainless steel welded tubes for pressure purposes
- EN 10253-3 - Stainless steel butt weld pipe fittings
- EN 10253-4 - Stainless steel butt weld pipe fittings
- EN 10264-4 - Stainless steel for wire ropes
- EN 10295 - Heat resistant steel castings
- EN 10296-2 - Stainless steel welded tubes for general purposes
- EN 10297-2 - Stainless steel seamless tubes for general purposes

The table of cross references of European to other international standards has been extended.
